Robert M. Nelson, Jr. Manager DOE.RFO

IAG DELIVERABLE FOR EPA AND CDH: SUBMITTAL OF DRAFT PHASE I RF/RI WORK PLAN FOR WOMAN CREEK DRAINAGE, OPERABLE UNIT NO. 5 (OU 5), OF ROCKY FLATS PLANT

As required by the Interagency Agreement, we are providing two copies of the Draft Phase I RFI/RI Work Plan for Woman Creek Drainage, Operable Unit No. 5 (OU 5), of the Rocky Flats Plant (RFP).

The document should be forwarded to EPA/CDH for comments by April 5, 1991. We are prepared to deliver the document to the agencies as soon as we receive your transmittal letter. This document is scheduled for EPA/CDH review and comments for 62 days (April 8, 1991 through July 3, 1991).

As a result of scoping meetings with EPA/CDH and an internal review (intending to anticipate additional agency comments), the following items were added to the original scope:

- Two ambient air monitoring stations,
- Analysis for additional organic chemicals defined in CDH site specific surface water standards, and
- Identification and evaluation of an additional disturbed area south of Woman Creek and directly south of IHSS 133.

Robert M. Nelson, Jr. March 26, 1991 91-RF-1657 Page 2

If you have questions or concerns regarding this document, please contact Tom Greengard at extension 7121 or Tom Ottensman at extension 3198, both of the Remediation Programs Division.
